PROFESSIONAL SUMMARY

- 13+ years of front-end and full-stack development experience across banking, telecom, government, and nonprofit projects.
- Expert in Angular (v2–19), React, Redux, Next.js, and Node.js, with a focus on performance, accessibility, and scalability.
- Proven builder of serverless AWS architectures (Lambda, API Gateway, S3, CloudFront, IAM, Secrets Manager) and Azure (AKS) deployments.
- Architect of privacy-first, local-first browser applications — in-browser PDF/CSV parsing, IndexedDB, and the Local File System Access API.
- Hands-on with GraphQL, REST APIs, AG Grid, and data-driven dashboards in regulated, high-compliance environments.
- Agile practitioner and mentor: sprint planning, code reviews, cross-functional collaboration, and junior developer mentorship.

TECHNICAL SKILLS

Frontend	Angular (2–19), React.js, Next.js, Redux, NGRX, Vue.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, SASS/LESS
Backend & APIs	Node.js, Express.js, REST APIs, GraphQL (Apollo)
Cloud & Serverless	AWS (Lambda, API Gateway, EKS, EC2, DynamoDB, S3, CloudFront, IAM, Secrets Manager), Azure (AKS)
Data & Storage	MongoDB, MySQL, Oracle, IndexedDB, Local File System Access API
Testing & Tooling	Jest, Jasmine, Karma, Git/GitHub, SVN, Nx Monorepo, SonarQube, CI/CD, Figma
Other	AG Grid, WebSocket, OpenFin, pdfjs-dist, papaparse, Photoshop, Illustrator

PROFESSIONAL EXPERIENCE

Senior Full-Stack Developer — MHP, Bengaluru, Karnataka, India Dec 2025 – Present

- Architecting and developing full-stack applications with Angular and React, focused on serverless AWS deployments (Lambda, API Gateway, S3, CloudFront).
- Driving adoption of local-first, privacy-conscious design patterns for client-facing tools, reducing reliance on centralized data storage.
- Configuring secure, IAM-scoped deployment pipelines with Secrets Manager for credential handling across environments.
- Collaborating cross-functionally on system design and code reviews, and mentoring within Agile delivery teams.

Fullstack Developer — Athena Doyens, New Jersey, NJ Apr 2025 – Oct 2025

- Built and maintained full-stack features using Angular on the front end with AWS-backed services for data storage and business logic.
- Designed reusable Angular components and services to support scalable, maintainable application modules.
- Deployed and monitored AWS resources supporting application infrastructure, improving reliability and release turnaround.
- Partnered with product and QA teams in an Agile environment to deliver features across sprint cycles.

Front End/UI Developer — CopperCone Inc, San Jose, CA

Apr 2021 – Sep 2024

Client: Citizens Bank, Phoenix, AZ

Dec 2021 – Sep 2024

- Developed and maintained React with Next.js applications for online banking portals, dashboards, and customer tools.
- Built reusable UI components following DLS 6 design guidelines, reducing redundancy and improving maintainability.
- Customized AG Grid with React-based renderers/editors for complex banking data requirements; integrated Apollo GraphQL for efficient data fetching and caching.
- Modernized legacy Angular.js/ExtJS UI to Angular 14 and React.

Client: Wells Fargo, Chandler, AZ

Apr 2021 – Dec 2021

- Developed Angular 12/13 single-page applications with modular architecture and reusable components; built dynamic dashboards with ng2-charts.
- Designed and improved GraphQL schemas/resolvers for scalability; implemented AWS services (EC2, DynamoDB, Elastic Load Balancer) for high availability.

UI/Front-End Developer — Vintech Solutions, St. Louis, MO

Aug 2016 – Apr 2021

Client: Dept. of Family Protective Services, Austin, TX

Mar 2020 – Apr 2021

- Used NgRx and RxJS for state management; built compliance templates and reusable components for billing and reporting systems.

Client: Frontier Communications, Allen, TX

Oct 2019 – Mar 2020

- Built React.js/Redux telecom dashboards with GraphQL batching and caching strategies for performance optimization.

Client: International Cruise & Excursion, Scottsdale, AZ

Mar 2018 – Oct 2019

- Delivered React.js/Redux single-page applications and reusable components across browser and device targets.

Client: Colorado Secretary of State, Denver, CO

Jan 2017 – Mar 2018

- Built Angular.js single-page applications with custom reusable components and real-time AJAX/JSON updates.

Vintech Solutions (direct engagement)

Aug 2016 – Jan 2017

- Developed and maintained applications with HTML5, CSS3, JavaScript, Node.js, and Angular.js; used SVN for version control.

Web Developer — Pendios Technologies, Bangalore, India

Aug 2012 – Dec 2014

- Built responsive UI using AngularJS, HTML5, CSS3, JavaScript, JSP, MySQL, and Bootstrap.

PERSONAL PROJECTS

Fiscora

d1ub7vmg84kpbfc.cloudfront.net/about

Local-first personal finance manager that parses PDF/CSV bank & UPI statements (PhonePe, Google Pay, Paytm) entirely in-browser into structured monthly JSON — no server storage.

- Angular, TypeScript, Tailwind CSS, pdfjs-dist, papaparse, IndexedDB
- Deployed on AWS CloudFront + S3

Basava VidyaBhiruddhi Sanga

sribvs.org/dashboard

Full platform and admin dashboard for an NGO, handling organizational management, outreach, and daily operational workflows.

- Angular, Tailwind CSS, Google Sign-In
- Serverless AWS: Lambda, API Gateway, S3, CloudFront, IAM, Secrets Manager

EDUCATION

Master of Computer Science — San Francisco Bay University, USA

2016

Bachelor of Engineering (Computer Science) — Cambridge Institute of Technology, India

2012
